

Steve Raukar

It has been a privilege to represent district 3 members and their families with a focus on the greater good of all members. In retrospect I want to thank one and all for your vote of confidence.

As we move forward, in keeping with the co-op mission to deliver efficient, reliable and affordable electricity, we need to continue to work with our regional, state & national partners, to educate and influence policymakers concerning issues that affect the ever-changing world of energy.

As one of 832 electric co-ops nationwide serving our members is paramount to success, and past practice has taught us, when Electric Cooperatives look out for each other everyone wins!

In closing I pledge to work cooperatively with my colleagues and administration to guide our collective future. We are committed to improving the delivery of electric services in a transparent, cost-effective and sustainable manner.

Your consideration and support of my candidacy would be greatly appreciated.
