

# 2018 Rates

## Lake Country Power's rates for special heating and cooling programs:

### Water heating

**Off-Peak** . . . . . 4.95¢ / kWh  
Heats your water for eight hours during overnight "off-peak" hours. Required tank storage capacity of 105 gallons to participate.

**8-hour Interruptible** . . . . . 6.15¢ / kWh  
A great water heating program for cabins or homes with limited space. Required tank storage capacity of 50 gallons to participate.

### Space heating

**Off-Peak** . . . . . 4.95¢ / kWh  
Charge and store heat for eight hours during "off-peak" hours, release heat during on-peak hours. See [www.steffes.com](http://www.steffes.com) for more information or [www.heatforlessnow.com](http://www.heatforlessnow.com) for a dealer near you.

**Dual Fuel** . . . . . 6.15¢ / kWh  
Must have automatic back-up gas, propane or fuel oil. Wood and uncontrolled electric do not qualify as a back-up source. Dual Fuel is subject to 400 hours of control during the heating season (Oct 15 - April 15).

### Cycled/Interruptible air conditioning

Cycled air (metered) . . . . . 6.15¢ / kWh  
Cycled air (unmetered) . . . . . \$10/mo. credit for June, July and August

During control periods for both programs, units are "cycled" in 15 minute intervals.

### Heat pumps

Air-source, if cycled . . . . . 6.15¢ / kWh  
Ground Source . . . . . General Service Rate or Dual Fuel . . . . . 6.15¢ / kWh

Ground-source heat pumps use the general service rate if no back-up system is installed, otherwise it will qualify for the dual fuel rate if you install a back-up heating system.

## Water Heating & Home Heating Cost Comparison

Propane	Off-Peak 4.95¢/kWh electricity	Dual Fuel 6.15¢/kWh electricity
70% Efficient (standard unit)	Equivalent to 93¢ propane (per gal.)	Equivalent to \$1.16 propane (per gal.)
90% Efficient (high efficiency unit)	Equivalent to \$1.20 propane (per gal.)	Equivalent to \$1.49 propane (per gal.)
Fuel Oil	4.95¢/kWh electricity	6.15¢/kWh electricity
60% Efficient (standard unit)	Equivalent to \$1.21 fuel oil (per gal.)	Equivalent to \$1.50 fuel oil (per gal.)
80% Efficient (high efficiency unit)	Equivalent to \$1.61 fuel oil (per gal.)	Equivalent to \$2.00 fuel oil (per gal.)

*\*Note: Lake Country Power must have a way to turn on and off or "control" your heat and/or water heating, so you must have your system(s) properly wired to our meter and radio receiver for that control. Programs may require an additional meter.*

### General Service Rates for Comparison

- 11.36¢ / kWh (Shoulder: Mar.-May & Sept.-Nov.)
- 12.36¢ / kWh (Winter: Dec.-Feb.)
- 13.36¢ / kWh (Summer: June-Aug.)
- \$42 (monthly facilities charge)

The monthly facilities charge recovers a portion of the co-op's local cost of delivering electricity to members. Part of our "fixed" costs are also collected through the kilowatt-hour charge. The facilities charge:

- Accounts for the co-op's investment in equipment like poles, wires and transformers, as well as labor to provide members with safe and reliable electric service.
- Supports fleet, facility and member service functions, such as line maintenance, right-of-way clearing, member service support and administrative responsibilities.
- Is similar to monthly fees that other utilities charge, such as telephone service providers.

### Renewable Energy

Wellspring Wind . . . . 50¢ per 100-kilowatt-hour block  
Wellspring Solar . . . \$2.00 per 100-kilowatt-hour block
